

A Reliable and **Affordable** table-top THUMB INDEX CUTTER

Different versions of thumb-indexed products exist. One in which the identification for quick reference is printed on the front margin space; these may be individual letters or color bars. If letters are used, printing and folding variations may play havoc with register.

Thumb indexing utilizing gold-stamped labels mounted into the desired position is more labor intensive but aesthetically much more pleasing. Such machines are in existence but expensive for short runs. The need for the simple thumb index cutting tool prompted the design of the **MEKADEX™**.

Progress never stands still and at Mekatronics we are always ready to embrace the latest technological advances which will make our equipment safer, more versatile, and dependable that will enable you to diversify your product line for increased profitability.

<ul style="list-style-type: none"> • Safe: 	Safety is assured whereby operation of the cutter is conditional on a foot switch being depressed first.
<ul style="list-style-type: none"> • Environmentally clean: 	A waste extracting system connected to a vacuum, ensures working in a clean environment.
<ul style="list-style-type: none"> • Versatile: 	The MEKADEX™ is the ideal tool for the small binder or the in-house repair bindery for Bibles, Card files, Dictionaries, Directories, Medical books, Legislative and financial records , and many other filing systems where quick reference is needed.
<ul style="list-style-type: none"> • Simple & Effortless: 	The operator locates every individual page or group of pages for cutting. A strip of board is inserted, and these strips are then placed at desired locations. The book-block is first placed in an optionally available fixture where it is clamped and fanned. Half-round index tabs are cut by a pneumatically operated tool. Thereafter, if desired, tabbing with gold-stamped pressure-sensitive or preprinted labels follows.
<ul style="list-style-type: none"> • Minimum Maintenance: 	The MEKADEX™ is ruggedly designed and built for heavy industrial use and trouble-free maintenance that will provide years of service.

Technical Data

Cut Depth	3/8 "
Cutter Dia.	Available from 1/4" – 7/8"
Air	90 psi
POWER	110 Volts AC 10 Amps
Physical	18" x 28" x 45" [8.16 x 12.7 x 20.41]
Shipping	18" x 28" x 33" [8.16 x 12,7 x 14.96]
Weight	110 lbs [50 kg.]
